1.Course Outline

This course focuses on the basic knowledge of international development programs and projects. Moreover, the course will encourage students' involvement in in-depth discussion about the development program/project implementation in the field by examining the case study of various fields such as poverty reduction, gender mainstreams, education and children, HIV/AIDS and health, rural development, and micro credit projects. It also challenges students to understand the reality of ODA field work and how the international society implements qualitative intervention in under developed countries.

2. Objectives

1.Understanding International Development (Theories and Practices)
2.Understanding Korea's current Involvement in International Development

3. Teaching Method

1. General lecture by instructor
2. Individual and team presentation
3. Team discussion

4. Evaluation Method

1.Attendance and Participation: 30%
2.Individual Research (for mid-term): 30%
3.Final Team Project: 40%

5. Assignments

6. Experiment, Practical Exercise

1. visit NGOs
2. Team research
